# Chapter I Introduction and Overview

**Executive Summary** 

Legal Framework

Mayor's Foreword

Municipal Manager's Statement

Audit Committee Chairperson's Report

Overview of the Municipality

Governance

#### EXECUTIVE SUMMARY

The Umzumbe Local Municipality's Annual Report has been developed according to the provisions of Section 121 of the Municipal Finance Management Act (MFMA), 56 OF 2003 AND Section 46 of the Local Government: Municipal Systems Act (MSA), 32 of 2000.

According to the National Treasury guidelines for the preparation of the Annual Report, the report should comprise five chapters to reflect the key activities undertaken within the organisation during the year under review. A brief summation of what is contained in each in each chapter is outlined below.

- Chapter 1: contains the geographic location of the Municipality as well as the population dynamics of the Local Municipality. Key to this chapter is the consultative processes that the Municipality embarked on, which led to the creation of our IDP document. The chapter touches on issues of governance and how the Council is constituted.
- Chapter 2: reports and highlights some of the key achievements and challenges of the organisation during the year under review. Though the Municipality had faced a number of challenges, but it continued to excel in service delivery as would be reflected in the report itself.
- Chapter 3: reports on the programmes designed by the Municipality to improve employment equity and skills development. It also highlights Human Resource Management Policies and Practices that have been carried out to build staff capacity. To ensure transparency, issues of remuneration of Senior Management have also been covered.
- Chapter 4: also key in this chapter is the fact that we have maintained our timely submission of the Annual Financial Statements to the Auditor-General for auditing.
- Chapter 5: reports on functional areas, development and the Annual Performance Report which reports on performance of the Municipality for the year under review.

## LEGAL FRAMEWORK

The Constitution of South Africa describes the social values of the country, and sets out the structures of government, what powers and authority a government has, and right citizens have. The founding Provisions of our 1996 Constitution set out the principles of democracy in South Africa. Umzumbe Municipality is one such democratically founded institution.

The 2010/2011 Annual Report has been prepared in accordance with the provisions of Section 121 of the Municipal Finance Management Act (MFMA), 56 OF 2003 AND Section 46 of the Local Council after following all the processes and procedures prescribed by Section 129 of the MFMA. In compliance with the provisions of the MFMA, this Annual Report is to be tabled by the Mayor at a Municipal Council meeting to held in January 2012, as prescribed by Section 127 of the MFMA, and was thereafter publicised for comments for a period of 21 days, this is done in terms of Section 21 (a) of the MSA.

In presenting this for the financial year ended 30 June 2011, we acknowledge progress made during the 2010/2011 financial year and the challenges that lie ahead. A detailed account of all the challenges and remedial actions going forward has been provided within this report.

I greet you in the name of service delivery. Steadily, our municipality is continually growing from strength to strength. This year, we take pride in the way we have interacted with our community on service delivery programmes. The results of our constant consultation with the community have significantly assisted us to align all our plans and activities with the needs of our people. Furthermore, our continuous engagement with our people has enabled us to deal with service delivery obstacles timeously.

Our ward committee system has effectively gained momentum through the introduction of rigorous capacity building and training sessions to ward committee members, which were aimed at strengthening public participation and advocacy. Similarly, our interactions with various stakeholders have brought about much needed collaboration in service delivery. Our participation in the Premier's Flagship Programmer War on Poverty) and our constant interaction with Government Departments such as the Department of Social Development, Home Affairs, Health, Education, Sassa and many others have enabled us to collectively plan and implement our service delivery programmes in a coordinated manner.

Once again, this year we have made remarkable progress in keeping with the regulations governing the use of government finances. I am happy to announce that this year we have received an unqualified audit report from the Auditor General for the third time in a row. This essentially means that we are taking prudent financial decisions in accordance with the requirements of the law. In the next financial year we are committing ourselves to strive for a clean audit report and we are confident that if we continue to work as a collective we shall indeed achieve this objective.

As government, we continue to make meaningful progress towards our goal of providing descent shelter to our people. Together, with the Department of Human Settlements we have commissioned housing projects in most of our areas, where this has been a priority target in accordance with our housing plans. However, in our assessments, we have noted that housing has now become a priority to many of our people, due to the changing weather conditions, which have, in most areas, left many people without a descent roof over their heads. In other areas of our municipality we have constructed roads and bridges to allow people free movement. We have furthermore undertaken to refurbish and recondition our

Cllr S.T Gumede (His Worship - The Mayor)

community facilities to be in a good usable state. These projects have been implemented through funding from the Municipal Infrastructure Grant (MIG).

This year we have also prioritized plans to develop local small and medium businesses to enable them to gain skills and knowledge so as to be proficient in management of their businesses. These businesses have been developed through training and mentorship, with a special focus on sectors such as Tourism, Agriculture, Manufacturing and Production. Through these initiatives, we want to ensure that we create more opportunities for our people to gain access to the mainstream economy thereby assisting us as government to curb the high levels of poverty and unemployment in our municipality.

In responding to the call by the national government to ensure access to education for all children, we have continued to provide school uniforms to over 2500 children from low income households, to enable every child in school going age to have access to basic. education. In addition, we have initiated a tertiary. education support programme for students that have completed their matric and have applied to further their studies at a tertiary institution but have no financial means to fulfil the registration requirements. This programme provides students with registration fees to gain access into tertiary education and thereafter students will be expected to seek financial assistance from their institutions through internal programmes, to complete their studies. Through this programme we have assisted over 100 students this year alone.

Like in all other years, the road we have travelled this year has not been a smooth ride throughout the year. Whilst we elucidate on our achievements, we also take stock of the challenges we have experienced, which in some instances have drawn us back in our drive to provide services to our people. Amongst notable challenges is the lack of adequate financial resources to fund our programmes, and the drastic changes in

weather conditions, which have had a negative effect in our infrastructure projects such as roads and bridges.

Another concerning fact that we have noted in this year is the increase in the number of people that are seeking assistance from the municipality to bury their loved ones. As council, we had taken a decision to assist families that are unable to cover costs for basic funeral requirements such as a coffin, food and storage when their loved ones have passed on. This, we were doing only to those familles that had no source of income whatsoever. However, this service has now been subjected to abuse by people who can afford to pay for these funeral requirements at the expense of the poor. This type of abuse has resulted to the budget being exhausted early in the year, which has ultimately led to the service not being rendered to most deserving families. We hope that in the next financial year people will refrain from abusing these services because they are there for those who need them most.

In conclusion, we wish to assure all our people that we will continue even in the coming years, to strengthen our relations with community representative structures, in order to ensure that service delivery is in line with the needs of the people.

Thank you

Cllr 5.T Gumede

(His Worship - The Mayor)

# ACTING MUNICIPAL Manager's Statement

The vision of this municipality portrays a picture where the physical and social infrastructure will lay a good and conductive environment for sustainable economy. This preferred picture of the future is based on this reality that the municipality is vastly rural where there is a high rate of unemployment and resultant poverty.

In the 2010/2011 financial year the Municipality intensified efforts of developing people by conducting a series of strategic planning workshops, municipal Indabas, municipal Integrated Development Plan, Budget Road shows and summits that almed to craft development towards the achievement of its vision.

The challenge of a credible Integrated Development Plan and a firm performance management system was our focus. The Municipality was guided by five National Key Performance Areas (KPA) as Key Focus Areas in its strategic direction. It helped to refocus programmes maximise the service delivery for the benefit of the needy community.

It was thus critical that:

- New development approach that strategically addressed the plight of the community was implemented;
- Through the integrated development plan, development initiatives, resources from all spheres of government were co-ordinated;
- Equitable distribution of resources in the municipality were allocated
- Economic development was speedily intensified;
- Customer relation and culture of people first was implemented.

The achievement of a better quality of life was entirely dependent on essential values of responsiveness to the needs of the people above everything else. Vastly rural as it is, the Municipality does not own land; as most of the land is owned by Ingonyama Trust and private owners. This was and is still a challenge to one of the Municipality's pillars of economy such as agriculture.

Municipality has very minimal revenue base, because there is no town to boost its income through rates. Attempts made to establish St Faith's township were met with many costly challenges. However, the inception of Ntelezi Msane's tourism development centre as a tourist attraction ignited hope for the future development. These were the attempts to overcome rural underdevelopment.

The development of Ntelezi Msane's Tourism centre will lead to one of the most tourist attractions in the South Coast.

Dr M. J. Ngesi (Acting Municipal Manager)

The infra-structural development of roads and community facilities was one of the strengths and pride of this

Municipality. Though the Human Settlement is not our core function, but a lot of efforts and energy were directed to housing by Umzumbe as a developer.

The Municipality was supported by a strong staff complements that worked tirelessly to deliver on the strategy and community needs. But there was still an insurmountable understaffing and lack of resources due to insufficient budget. This lack of human resources also arrested the desired expedient progress towards skills development.

Some of the rare talents were developed in the performing arts development programme. This is one of the strategies of the Municipality to build capacity of artists so that such talent is commercialised to dent unemployment rate.

The financial management of the Municipality continued to be in good and capable hands. This was demonstrated once more by the achievement of unqualified audit report. It was and it still our goal to eventually attain a clean audit, preferably before 2014.

The Municipality was committed and as it is still committed to good governance. Structures were in place to combat corruption. This is indeed a municipality on its way to great achievements, in spite of many challenges of resources. The leadership is visionary and committed to growth and prosperity of this Municipality, and this will be definitely achieved within current five years of the IDP cycle.

Man

Dr M.J Ngesi Acting Municipal Manager

We are pleased to present our report for the financial year ended 30 June 2011.

#### Audit Committee Members and Attendance

In terms of the Municipal Finance Management Act (MFMA) and the Audit Committee Charter, the Audit Committee as at the 30 June 2011, included four external independent members. None of the members were Councillors. Prior to the review and subsequent

Council approval of the Audit Committee Charter in June 2011, the membership composition of the Audit Committee included the Municipal Manager and Chief Financial Officer. The Audit Committee included the following members listed hereunder and meets at least four (4) times per annum as per its approved Charter. During the year under review four (4) meetings. Details of the external members and their attendance at audit committee meetings during the year are listed as follows:

#### Name of Member Qualifications Appointed Resigned Meetings Attended

Table 1: Statistical report on the number of Audit Committee meetings

# Audit Committee's Responsibilities

The Audit Committee's responsibilities are outlined in Section 166(2) of the Municipal Finance Management Act, 56 of 2003. The Audit Committee has adopted appropriate formal terms of reference as its Audit Committee Charter, has regulated its affairs in compliance with this Charter and has discharged all its responsibilities as contained therein. A summary of the Audit Committee's responsibilities in terms of the MFMA and its Charter is that it is responsible for, among other things, the following:

#### AUDITORS AND EXTERNAL AUDIT

Discuss and review with external auditors, inter alia:

- the nature and scope of the audit function;
- agreeing to the timing and nature of reports from the external auditors;
- considering any problems identified in the going concern of the Municipality;

- review the Auditor-General's management letter and management response; and
- meeting the Auditor-General at least annually to ensure that there are no unresolved issues of concern.

#### ANNUAL FINANCIAL STATEMENTS

- Review significant adjustments resulting from the audit;
- · Review effectiveness of the internal audit;
- Review risk areas of the operations to be covered in the scope of the internal and external audits; and
- Review the adequacy, reliability and accuracy of the financial information provided to management and other users of such information.

#### PERFORMANCE MANAGEMENT

 Review of the quarterly reports submitted by internal audit on the performance management system;

- Review the performance management system ensuring functionality thereof and compliance with the Act;
- Focus on economy, effectiveness, efficiency, reliability and impact applicable to the Municipality's own key performance indicators; and
- Reporting on the outcomes of its review and focus areas to the Council, at least twice per annum.

#### INTERNAL CONTROL AND INTERNAL AUDIT

The monitoring and supervising of the effective function of the internal audit including:

- evaluating performance, independence and effectiveness of internal audit and external service providers through internal audit;
- review the effectiveness of the internal controls and to consider the most appropriate system for the effective operation of its business; and
- Initiating investigations within its scope, e.g. employee fraud, misconduct or conflict of interest.

#### **ETHICS**

Reviewing the effectiveness of mechanisms for the identification and reporting of:

- any material violations of ethical conduct of Councillors and municipal staff;
- · compliance with laws and regulations; and
- environmental and social issues.

#### COMPLIANCE

- Carrying out investigations into financial matters as Council may request;
- Reviewing the effectiveness of mechanisms for the identification and reporting of:
  - compliance with laws and regulations; and
  - the findings of regulatory bodies or audit observations.

The Audit Committee is satisfied that it has compiled with its responsibilities and has discharged them properly and efficiently.

#### The Effectiveness of Internal Controls

The system of controls is designed to provide costeffective assurance that assets are safeguarded and that liabilities and working capital are efficiently managed.

In line with the MFMA and the King III Report on Corporate Governance requirements, Internal Audit provides the Audit Committee and management with assurance that the internal controls are appropriate and effective. This is achieved by means of the risk management process, as well as the identification of corrective actions and suggested enhancements to the controls and processes. From the various reports of the Internal Auditors, the Audit Report on the Annual Financial Statements, the matters of emphasis and management letter of the Auditor-General, it was noted that no significant or material non-compliance with prescribed policies and procedures have been reported. Accordingly, we can report that the system of internal control for the period under review was effective. The Audit Committee is satisfied with the internal controls in place and overall adherence to those controls.

# The Quality in Year Management and Monthly/Quarterly Report Submitted in terms of the MFMA

The Audit Committee received and reviewed certain performance management reports and is satisfied with the content and quality of these monthly and quarterly reports prepared and issued by the Accounting Officer and management during the year under review.

#### Internal Audit Function

The municipality does not have its own internal audit function. The internal audit function of the Ugu District Municipality is used by the municipality.

During the year under review, an audit plan was prepared based on the Annual Risk Assessment. The following is a list of areas covered by Internal Audit, arising from the risk assessment:

- Follow Up reviews: Revenue Management
- · Follow Up reviews: Asset Management
- Follow Up reviews: Project and Contract Management
- · Human Resources: Recruitment Management
- · Human Resources: Leave Management
- Bi-annual reviews of the Performance Management System

An annual assessment of the Internal Audit Function had been completed by Management and the Audit Committee.

The internal audit function is limited with respect to resources however the Audit Committee is satisfied with the performance of the Internal Audit Function and reports that most of the projects in terms of the approved annual plan

had been completed by the end of the financial year.

#### Evaluation of Annual Financial Statements

The Audit Committee has:

- reviewed and discussed with the Auditor-General and the Accounting Officer the audited Annual Financial Statements to be included in the Annual Report;
- reviewed the Auditor-General's management letter and management responses;
- · reviewed the accounting policies and practices;
- evaluated the audited Annual Financial Statements to be included in the Annual Report and, based on the information provided to the Audit Committee, considered that the said statements comply in all material respects with the requirements of the MFMA and Treasury Regulations as well as the statements of Generally Recognised Accounting Practice (GRAP).

The Committee concurs and accepts the conclusions of the Auditor-General on the Annual Financial Statements and is of the opinion that the audited Annual Financial Statements be accepted and read together with the report of the Auditor-General.

#### Conclusion

I would like to thank my colleagues for making themselves available to serve on this Committee and for the significant contribution that they have made. As an Audit Committee, we rely to a great extent on the Manager: Internal Audit and his staff in the Internal Audit Section from the Ugu District Municipality for their support and assistance and, in particular, for the role they continue to play in improving the accounting and internal auditing systems and controls at the Municipality. We are indebted to them for their efficient service and assistance.

We are also grateful to the Chief Financial Officer, the Auditor-General and other invitees to our meetings, including the external service providers, all of whom provided invaluable information to the Committee.

Mr Paul Preston

Chairperson: Audit Committee

Date: 01 December 2011

# INTRODUCTION AND BACKGROUND

THE Annual Report document represents part of the long journey that has been travelled by the Umzumbe Municipality with regard to service delivery to its people. It represents a rigorous process, shared analysis with the community and various stakeholders within the financial year 2010/2011 in making sure that the municipality has an auhtentic, credible and closely monitored service delivery that represents the aspirations of its civic people.

Both the political and administrative leadership of the municiplity, together with our partners in development, collectively understand the common vision 2015.

The development of the Umzumbe Municipality's IDP, which in principle is reviewed annually, is based on the meaningful contributions that have been made by the members of the community. This is because the municipality adopted the Area Based Management Plan as its community participation methodological tool that allows it to extract the current development path and real status quo on the round with regard to servcie delivery. This methodology has enabled the municipality to reflect back to the initial IDP of the financial year 2002- 2003 that was adopted by the Council at the time in order to evaluate the progress that has been made. This has allowed the development of new strategies that will ensure that the municiaplity is still on the right track in fulfilling its developmental mandate.

We have used the five (5) National Key Performance Areas as our Key Focus Areas that will continue to guide us in our strategic direction. However, the programmes/ projects have been refined and refocused in order to be more effective and maximize the service delivery benefits acruiing to the community.

#### VISION

"By the year 2015 the people of Umzumbe will enjoy a better quality of life with viable physical and social infrastructure and sustainable economy".

#### MISSION STATEMENT

The municipality is dedicated to promote peoplecentered development for service delivery and sustainable Local Economic Development (LED).

#### OUR MISSION WILL BE ACHIEVED BY:

- Implementing "new development approach" that strategically addresses the key challenges that are facing the people of Umzumbe.
- Integrated Development Planning, proper coordination and integration of development initiatives of Umzumbe Municipality and other spheres of the government.
- Ensuring the fair and just allocation and distribution of resources within the area.
- Enhancing the economic development and growth within the area.
- Infrastructure development and service provision that meets priority needs of the community.
- Learning from other municipalities with the best practices in service delivery.
- Empowering our citizen through capacity building initiatives that characterize the developmental local government.

#### VALUES

- To be responsive to the needs of the citizens.
- Develop partnerships for development with "friends of Umzumbe" (other government departments and service providers).
- To be transparent, accountable and participative in our dealings with each other regarding the partnerships.
- To cultivate a work ethic on performance, achievements and results.
- To promote and pursue key national, provincial and local government developmental goals.
- · To ensure a representative organization.
- To be democratic in the pursuance of our objectives.
- To show mutual respect, trust and ensure high levels of co-operation and discipline in our dealings with service delivery partners.

#### MUNICIPAL PROFILE

UMZUMBE Municipality (KZ213) is a local municipality falling within the Ugu District Municipality (DC21). It is one of the six (6) local municipalities within the District. It is the largest municipality within the district in terms of the geographic area coverage. The municipal boundary runs along the coast for a short strip between Mthwalume and Hibberdene and then balloons out into the hinterland for approximately 60km. It covers a vast, largely rural area of some 1260km<sup>2</sup>

with approximately 1% being built up / semi-urban. The municipality incorporates 17 traditional authority areas comprising ten (10) municipal wards. The Municipal Council comprises of 19 ward councillors and 18 proportional representative councillors.

One of the greatest challenges in Umzumbe is that the municipality does not own any land, most of the land is owned by the Ingonyama Trust and private owners. The municipality has very close ties with its people, and invests in their growth and development. In the past financial year initiatives such as dress a child, seeds project, community participation and various others have been implemented on the plight to alleviate extreme poverty.

The (2001) national statistics state that "the total population within Umzumbe Municipality has been estimated at 176, 287 persons". The average ward population is 9 155 people, but there is significant variation above and below this figure. Ward 3 is the largest with 13 308 people and Ward 18 with the population of 4 487, is the smallest. The inland wards such as 12, 1, and 16 are the least dense, with the population densities of 65 to 95 people per km². Coastal wards 19 and 17 have densities of 600 to almost 800 people per km². The population congregates towards the coast, where fast transport routes allow easy access to the economic opportunities.

A large proportion of the population is poor, and is characterized by low levels of employment, limited and irregular households income, and inadequate levels of education and training. It is estimated that approximately 50% of the municipal population falls within the economically active group, but of this group, a municipal average of only 9.5% are formally employed.

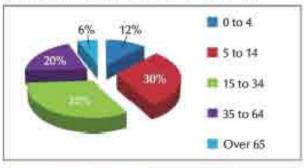

The dominant land uses in order of significance are: thicket and bush land (27%), subsistence farming (24%), grassland (17%), forestry (12%) and sugar cane farming (7%). There are very little dense residential settlements (1%). The most striking feature, however, of the municipality is the extent of undeveloped natural land cover, which represents almost 60% of the total land area. The topography can be described as extremely rocky and hilly. The municipality embraces 17 traditional authority areas: the Bhekani, Cele, Dungeni, Emandleni, Hlongwa, Hlubi, Izimpethu Zedlovu, Mabheleni, Ndelu, Nhlangwini, Nyavini, Qoloqolo, Qwabe N, Qwabe P, Shiyabanye and Thulini. Because of the size, the municipality has decided to follow an

area-based management approach to planning and development. It is divided into four clusters such as follows:

The tables and graphs below provide a brief socioeconomic overview of the area. This overview serves as a background to the strategic planning basis of the municipality:

# Graph 1: Municipal Profile

SOURCE: STATS SA, COMMUNITY SURVEY 2007

Municipal Profile	0 to 4	12%

# INSTITUTIONAL ARRANGEMENTS, ROLES AND RESPONSIBILITIES

Table 2: Below illustrates the organizational structure adopted to coordinate the IDP process. There has been no change to the existing structure as the roles and responsibilities have not changed.

#### INSTITUTIONAL ARRANGEMENTS, ROLES AND RESPONSIBILITIES

ROLE PLAYER	ROLE AND RESPONSIBILITIES
Municipal Council	Final decision making body of the municipality.
	Adopts the IDP & Budget Process Plan.
	Considers and Adopts the Reviewed Final IDP.
Executive Committee	They are the executive authority of the municipality.  Delegate the overall management, co-ordination and monitoring of the process and development of the IDP & Budget to the Municipal Manager
IDP Steering Committee	Consists of the Heads of Departments (HODs), which are: The Municipal Manager's Office, Director Corporate Services, Director Financial Services, Director Technical Services, Director Economic & Social Services and the IDP manager.  Oversee the alignment of the planning process internally (within the municipality) and externally (with other stakeholders).
IDP Forum	Consists of all the ward councilors/ communities, Government Department NGOs, GBOs and other role players/ services providers.  The stakeholders provide input in the developmental process of the municipal IDP.
IDP Manager/ Municipal Manager	Provides relevant technical input throughout the IDP process.  Gives an input in the preparation of the sector plans/ programes.  Managers and co-ordinates the IDP process

# GOVERNANCE COMMITTEES STRUCTURES EXECUTIVE COMMITTEE STRUCTURE

The Executive Committee has delegated plenary powers to exercise the powers, duties and functions of Council, excluding those plenary powers expressly delegated to other standing committees and those powers which are wholly resolved to the Umzumbe Local Council. Notwithstanding the above, the Executive Committee is authorised to exercise any of those plenary powers delegated to other Standing Committees in circumstances where any matters from these committees are referred to the Executive Committee.

In line with Section 80 of the Municipal Structures Act, the Municipality currently has five multi-party Portfolio Committees, namely: FBCC portfolio committee; LED & Infrastructure portfolio committee; Community Services portfolio committee and Planning portfolio committee.

These Portfolio Committees continue to assist the Executive Committee in policy development and monitoring to accelerate service delivery, as well as the oversight of strategic programmes and projects.

## MUNICIPAL MANAGER'S OFFICE

## Development Planning

The department developed an IDP for 2010/2011 in line with the IDP process plan. This was achieved through consultation with all stakeholders within the area of Jurisdiction. This was done through collaboration of IDP forums,, steering committees, EXCO and the Council. The reviewed IDP was aligned to the District's municipality's and Provincial priorities. However, Umzumbe's reviewed IDP scored 62% in the Provincial assessment.

#### **ACTUAL PERFORMANCE**

- A Strategic Planning Session for the 2011/2012 IDP was held in January 2011
- · 4 IDP Representative Forum meetings were held
- The 2011/2012 IDP was submitted to Cogta on 31 March 2011 for assessments.
- Adverts to invite community comments were published as required by the Municipal Systems Act, Act 32 of 2000.
- 2011/2011 IDP Roadshows were conducted in April 2011
- The 2011/2012 IDP was adopted by Council in June 2011

#### CHALLENGES

 The Municipality still suffers inadequate involvement of sector departments in its IDP representative Forum meetings, which therefore compromises the alignment and co-ordination of projects and programmes between the municipality and sector departments.

# Communications, Mayoralty and Youth Development

Exam prayer for before matric final exams.

The main functions of the department are to plan, developand implement strategies and projects to achieve a co-ordinated internal and external communication process, support the administrative functioning of the Mayor's office and advance the interests of young people within Umzumbe Municipality.

Opening of Khati Road.

#### HIGHLIGHTS

- Installation of external directional signage to the municipal offices.
- Created platform for interactions between the Council and the community, through Mayoral Izimbizo, IDP and budget road shows
- Built capacity of ward committees through provision of skills development programmes.
- Provided bursaries and registration fees to young people from disadvantaged families.

#### CHALLENGES

- Website was not appropriately updated as a result of the inefficient functioning of the IT systems.
- Financial constraints to implement most of departmental projects such as signage and notice boards.
- Inadequate human resources capacity.

# FINANCIAL SERVICES DEPARTMENT

#### OVERVIEW

In terms of section 62 of the MFMA, the accounting officer of a municipality is responsible for managing the financial administration of the municipality. The treasury department was established to address this responsibility. The financial services department comprises the following sub-departments: Expenditure and Assets, Budget, Treasury and Revenue and Supply Chain Management.

#### PERFORMANCE HIGHLIGHTS: ANNUAL FINANCIAL STATEMENTS

As per section 122 and 126 of the MFMA, the municipality must for each financial year prepare annual financial statements which must be submitted by the 31 August to the Auditor General.

The annual financial statements for the financial year 2009/2010 were compiled in terms of Generally Recognized Accounting Practice (GRAP). The annual financial statements were submitted to the Auditor General on time and compliance was confirmed. The municipality received an unqualified audit opinion on 02 December 2011 from the Auditor General.

#### MONTHLY FINANCIAL REPORTS

In terms of section 71 of the MFMA, the municipality must by no later than 10 working days after the end of each month submit to the mayor and the relevant treasury monthly budget statements.

The monthly financial reports were prepared timeously and were submitted to the Executive Committee (Exco) and Treasury as well as other portfolio committees.

#### MID-YEAR BUDGET AND PERFORMANCE ASSESSMENT

In terms of section 72 of the MFMA, a mid-year budget and performance assessment of the municipality must be made by the 25 January each year.

The preparation of the mid-year budget and performance assessment was compiled and adopted by the Council on 25 January 2011.

# COMPLIANCE TO THE SUPPLY CHAIN MANAGEMENT (SCM) POLICY

The municipality is in its second year of implementation of Pastel Evolution, which has assisted in the facilitating of procurement such as electronic requisitions and orders.

Separate files were opened for each individual contract which contained details of the contractor, evaluation and adjudication reports, payments details etc.

Bids of at least R 100 000 were submitted to Treasury In accordance with SCM regulations.

The evaluation and adjudication of the tenders was done accordingly. When evaluating and adjudicating tenders HDIs, women, disabled, youth, locality, SMME components etc were considered without compromising the requirements as per the advertisement.

#### COMPILATION OF THE ASSETS REGISTER

The municipality compiled the fixed assets register for the 2010/11 financial year in accordance with GRAP 17. This formed part of the process of the annual financial statement preparation.

#### MUNICIPAL PROPERTY RATES

As of 1 July 2009, the municipality began charging for property rates in terms of the Municipal Property Rates Act. The valuation roll was compiled and the property rates billing system was integrated with the general ledger system. During 2010/2011 financial year a supplementary valuation roll was done and updated on the system. In addition there has been a considerable reduction in government debt.

#### FINANCIAL HIGHLIGHTS

The total assets amounted to R 137 136 480 and the total liabilities amounted to R 7 981 605 resulting in net assets of R 129 154 875 for the year.

The total revenue amounted to R 99 179 079 and the total expenditure incurred amounted to R 57 548 518 resulting in a surplus of R 41 630 561 for the year.

The cash and investments for the year amounted to R 15 617 517.

The total budget for the year was R 116 327 861 comprising operational budget R 61 089 319 and capital budget R 55 238 542.

#### CHALLENGES

- The requirements of GRAP 17 posed challenges such as componentizing of infrastructure assets which required specialized knowledge.
- The physical verification of the assets was also challenging due to assets being spread over the large geographical area of Umzumbe.
- The municipality faced challenges such as nonpayment of rates and no registered postal addresses.
   In addition the municipality had capacity issues as property rates required specialized knowledge.
- · Capacity constraints within the department.

## TECHNICAL SERVICES

#### PROJECT MANAGEMENT UNIT

All projects identified by Umzumbe Local Municipality were implemented and the Municipality achieved 100% of expenditure on MIG funding. The allocation of MIG funding for the financial year 2010/2011 was R20,499,347.86.

#### HIGHLIGHTS

 The target was to construct 53km of gravel roads and to upgrade road network within Umzumbe Local Municipality. The target was exceeded and the municipality achieved 57 km of gravel roads and 17km of concrete pavement.

Khoza Access Road

#### CHALLENGES

- · Huge infrastructure backlog.
- Inadequate funding for infrastructure provision

#### HOUSING DEVELOPMENT

The target was to construct 650 housing units. The following progress was achieved:

 In Cluster A, the Municipality managed to secure approval of Tranche 2 application by the MEC (Department of Public Works and Human Settlement).

- In Cluster B, the Municipality Managed to secure approval of 1000 houses and one house has been constructed in Mehlomnyama Village in Ward 5.
- In Cluster C, the Municipality terminated the contract with the Implementing Agent due to poor performance.
- In Cluster D, the Municipality experienced difficulties in preparation of project description as most of land is privately owned. The Municipality is working to resolve this matter.

#### CHALLENGES

- · Scarcity of land.
- Poor working relationship between Municipal Councillors and Traditional Authorities.
- Poor performance by the Implementing Agents.

#### CORPORATE SERVICES

#### OVERVIEW

Corporate Services Department is mainly operational in nature. It provides strategic direction and support to the services department by ensuring that Human/ Physical Resources are in place to enable the Municipality to meet its service delivery objectives.

The Department is composed of two sections with different legislative mandate i.e. Human Resources and Administration Support Services.

# Performance Highlights

#### Workplace Skills Plan

- The WSP and Annual Training Report were submitted to LGSETA on time and refund was made to the Municipality in terms of Skills Development Levy.
- Human Resources Policy, Employment Equity Plan and Records Management Policy were renewed and formulated, respectively.
- Placement process with minimal financial implications was done.
- · Review of the organogram was done.

#### ABET Programme

 Six internal employees and three semi-literal were enrolled through ABET programme and they are making a good progress.

#### Fleet Management

 Installation of vehicle monitoring system C-track has produced significant reduction in vehicle abuse.

#### Telephone Costs

 Soft-locking of contracted cell phones and deactivating of codes for land line phones.

#### Vehicle

- Old vehicle auctioned in line with the fleet management Policy and approval by the Council.
- Four (4) vehicles purchased including the one of the Mayor.

#### Council Meetings

 The number of Council meeting for exceeded the prescribed number i.e. four (4) meeting per year.

#### Council Inauguration

An excellent event to inaugurate new council held.

#### Challenges

 Decentralization of budget for activities like training impacted negatively on the performance of the Human Resources Section( as the co-ordination Department) hence negatively contributing to the WSP and resultant to Skills Development Levy refund.

- tack of contribution to the WSP by Councillors due to their failure to submit their personal development plan to the Speakers also impacted negatively on the Skills Development Levy refund.
- Councillors demonstrate low level of interest in courses scheduled for them.
- Inconsistency in Management particularly the HODs in authorizing overtime resultant in large uncontrolled overtime payments, hence causing serious audit queries.
- Resistance of compliance with the Human Resources Policy particularly by Senior Management is still a challenge e.g attendance of trainings held outside the Province and Reporting,
- Submission of items for inclusion into agendas is not properly coordinated and this results in submission of reports with different formats.

# SOCIAL AND ECONOMIC DEVELOPMENT

Social and Economic Development comprises of three units namely, Community Services, Local Economic Development and Disaster Management.

# Community Services

The unit is responsible for responding to the social challenges faced by Umzumbe community. Key programmes are briefly outlined below.

#### Poverty Alleviation

The unit has partnered with Social Development, Home Affairs, Dept. of Health and SASSA in ensuring that people's interests are being championed. Poverty alleviation program comprises 38 women who were established specifically to address the issue of poverty whereby 2 unemployed poverty affected women in all wards were identified as indigent. These women were placed as general workers to clean all Municipal Community facilities in all 19 wards and receive a stipend for performing such tasks. This programme eventually provided job opportunities.

#### Dress a child

This program has a particular objective to encourage young learners while at the same time addressing challenges of poverty. All 19 wards of Umzumbe participated in the program by involving their

stakeholders. Ward Councillors work hand in hand with Educators, Community Based Organizations as well as Ward committees in identifying beneficiaries. 2850 young learners from 150 schools were identified and received school uniform. Dress a Child campaign has been so successful since its establishment.

#### Grant in Aid

This initiative was aimed at empowering and providing support to Community Based organizations that operated without any intention to make profit. The implementation of the program was successful with fewer challenges. All NGOs were invited to render their proposals and 8 NGO's qualified for the grant. 8 NGO's were selected according to the set criteria and received goods that would assist them in rendering their services to communities and beneficiaries. The handing over of the goods was held at Mantiyaneni Sport ground (Mthwalume High) in ward 11.

#### HIV and AIDS

HIV and Aids program requires various proactive interventions to overcome the effect of HIV and Aids epidemic. Various initiatives were developed as a response towards HIV and Aids such as awareness campaigns whereby Umzumbe Municipality coordinated and participated in the abstinence programme held annually as a ceremonial event at Enyokeni. Another intervention developed was to provide HIV and Aids Kits as a support to NGOs dealing with HIV and Aids cases in all 19 wards.

#### Basic Electricity

One of the important projects within the Community Services Department is the provision of free electricity tokens. 3000 electricity tokens were collected every month by families identified as indigent in all 19 wards.

#### Gender

This programme's objective is to empower women in terms of understanding and dealing with the gendered role of women in society. A forum was established which is made up of members from different Government and community structures. One of the important roles of the forum is to facilitate its participation in National Calendar of Events such as Women's Day Celebration which was hosted at Kwa Dweshula Sports ground in ward 1, as well as Sixteen days of Activism against abuse directed to women and children which was held at Mgai Sportsground in ward 11.

Picture taken at the 16 days of actisim against women and children abuse in 1 December 2010, Mgayi sports ground.

#### Senior Citizens Porgramme

Senior Citizens program aim at encouraging senior citizens to participate in their affairs by providing a podium whereby all issues related to them are discussed. Another main objective of the program is to encourage active ageing by providing sport codes where all these senior citizens participate. In supporting the program Luncheon clubs are established and launched. Luncheon clubs are ward based structures where various platforms are created.

#### Challenges

- · Understaffing/ lack of human capacity
- Financial constraints that hinder the unit in meeting and responding to the unlimited number expectations from the community.

# Local Economic Development

The unit has been involved in many programmes and projects that are associated with economic development initiatives and sustainanble livehoods which include the following overview.

#### Ukwakhana Craft Market

This is a proposed project based in ward 19 by the Durban Społu off ramp. It is a crafft hub project for all the crafters of Umzumbe. It is envisaged that crafters would make their products where they are and then send them to this market for sales and marketing. The market would be centrally managed eliminating the struggle, competition and chaos of individual canvassing. The market steering committee cinsisting of representation from all wards has been elected. It is situated at the offramp so that the passing trade from the N2 could be solicited.

#### Ex Convicts Project

This is an empowerment project aimed at ex prisoners. It is intended to assist them to get integrated and resettle in their respective communities. It is common knowledge that it is hard for an ex convict to get a job which creates the vicios cycle where they fall back to crime in order to make ends meet. This programme is skills based with the hope that new ventures and opportunuties would be created. The ex convicts of Umzumbe have formed a cooperative that is registered and have been trained in side lamp making as well as shoe making. Others have since been able to find employment, the municiplaity has assisted this.

cooperative by providing inputs and they have started selling their products to as far as Lesotho.

#### Umzube Organic Farming

This project is part of the OMOP project. Comprising of three projects, namely: Gqubhinhlabathi co-op, Shinga coop and Mgayi coop. As part of the OMOP these projects grow purple passion fruit for the juicing market. Due to lack of funds there is not enough plants to sustain the co-op.

#### Municipal Tractor Programme

This is an agricultural mechanisation project, where the municipality offers land preparation services to community gardens, small farmers, individual households as well as schools. Land preparation services include ploughing and disking. The tractors are also used for grass mowing in sportsfields throughout Umzumbe.

#### Tourism Ntelezi Msane

This is a heritage project that seeks to commemorate the Heroes of Umzumbe that took part in the poll tax uprising of 1906. This project is going to be the cornerstone of tourism and development within the municipality. Research that has been done has linked Umzumbe to international avenues such as St Helena

Picture taken at the Ntelezi Msani memorial event

Island where a tourism agreement should be signed. The agreement involves the museums of Umzumbe and St Helena showing the others heritage and artifacts. The project comprises lifestyle features such as accomodation, restuarants, archive centre, library, art and culture academy etc. The monument that commemorates our lost heroes has been erected at Umjahweni another one needs to be sent to St Helena. The project is also registered with MIG and other funders have been approached as funding is the main detriment of this ambitious project.

#### Challenges

- A large portion of land within the jurisdiction of Umzumbe municipalities belongs to the Ingonyama Trust which makes it difficult for the municipality to have access to land required for developmental purposes.
- Umzumbe local municipality generates less revenue, which result in budget constraints for other projects to be implemented efficiently.

## Disaster Management

The Department is still at its infancy stage but has been able to accomplish a lot in this financial year. The accomplishments are progressive and give direction to the section with projections of a section that has a great potential to establish itself as a unit. Programs that were implemented in 2010/2011 financial year were more into taking department to the community e.g. awareness campaigns, risk assessments etc. It however becomes imperative that systems be put in place e.g. policies, operational plans etc. to be able to form strong foundation for the section. Below are the programs and projects that were implemented, successes and challenges met and how those were approached and dealt with.

#### Stakeholders Advisory Forum

Disaster Management Stakeholders' Advisory Forum was established and is currently meeting on quarterly basis or specially if there are urgent matters that need discussion. This is the most important structure of the section in that it assists with the direction for the department. With a vibrant stakeholders' forum the section is able to link projects with those of the stakeholders like government departments, etc. When the risks are identified and profiled it is in these meetings that different departments adopt these risks e.g. for human diseases become Department of Health's responsibility.

#### **Trainings**

A number of training were conducted in this financial year, the highlight is the 4 day training for municipal councilors which took place in June. Among other trainings this was very important because the newly elected councilors deal with people directly and empowering them with the training is beneficial to the department and also to individuals.

#### Shared Services

The section shares some of the services with Umdoni municipality with regards to fire fighting. Two fire fighters are currently being trained at Umdoni with the hope that they will return with the skill and be able to assist the community of Umzumbe.

#### Challenges

- Understaffing: The section is struggling with regards to the staff. Currently only the manager is managing and also implementing the programs. The two interns that were allocated had to leave because of different reasons. This is hindering the progress and rendering it very slow. It becomes a challenge when multi activities have to be performed and one person is not enough.
- Resources: The section is dealing with emergencies e.g. fires and accidents. The section also has a target of 72 hours response time that has to be met and this requires resources. Space is also important if we are to bring back the fire fighters to work here in the municipality.
- Establishment of Fire Association: The establishment of fire association was also a bit challenging. The actual establishment is not a challenge as it is done at a provincial level. The cost of running the program requires attention as the municipality will have to employ people that will be responsible for the fire breaks.

- · Property Rates Policy formulated
- Credit control policy amended and approved by Council
- · Rules and Orders approved and gazetted
- Workplace Skills Plan (WSP) and Annual Training Report approved and submitted to LGSETA on time.
- Telephone and cell phone policy formulated and approved by Council.
- · Registry Policy Developed:

The following are pension fund schemes in existence in the Municipality

- · Provident Fund
- · Natal Joint Pension Fund

# PROGRAMME

A total of forty one (41) employees received training in the 2010/11 financial year. Other trainings were funded by LGSETA for pay day training and South African Local government Association (Salga) Games.

#### Minimum Competency Levels for Senior Management

The Municipal Finance Management Act, Sections 83, 107 & 119 prescribe that the Accounting Officer, Senior Managers, the Chief Financial Officer and other financial officials of a municipality must meet the financial management competency levels prescribed by regulation. National Treasury Issued regulations on Minimum Competency Levels on the 15 June 2007 the regulation prescribe the minimum competency levels for the following categories of employees:

- Accounting Officers of Municipallties and Municipal entities:
- Chief Financial Officers of Municipalities and Municipal entities;
- Senior Managers of Municipalities and Municipal entities:
- Other Financial Officials of Municipalities and municipal entities; and
- Supply Chain Management Officials of Municipalities and Municipal entities.

The regulations further require each municipality to report in its Annual Report a consolidated information in respect of progress made in the attainment of minimum competency levels by the above mentioned category of employees.

- · Accounting Officers of Municipal entities.
- Chief Financial Officers of Municipalities and Municipal entities
- Senior Managers of Municipalities and Municipal entities
- Supply Chain Management Officials of Municipalities and Municipal entities

The regulations further each municipality to report in its Annual Report a consolidated information in respect of progress made in the attainment of minimum competency levels by the above-mentioned category of employees.

# Training for councillors

Due to the leadership change in 2006, the majority of the Councillors needed to be trained in various aspects of institutional development and good governance. The main aim of the training was to provide continuous capacity building to the Councillors so as to allow them to take informed decisions for service delivery. As noted above, the majority of the Councillors have been trained largely on issues of good governance and institutional development.

As part of the strategy to speed up service delivery, the municipality has been able to comply with the DLGTA requirement by confirming all the councillors who slt in the EXCO into full-time status. This has given the municipality extra capacity in service delivery and it has provided an opportunity to the leadership to interact on daily basis on developmental issues.

Below is a list of Councillors who were trained on different programmes:

- 15 Councillors trained on financial reporting
- 2 Councillors trained and graduated in CPMD
- 1 Councillor trained for Project Management
- 1 Councillor studied for Tourism
- 2 Councillors trained and graduated in ELMDP

## PROVINCIAL LEGISLATURE AND THE COUNCIL ON THE UMZUMBE MUNICIPALITY

### REPORT ON THE FINANCIAL STATEMENTS

#### Introduction

 I have audited the accompanying financial statements of the Umzumbe Municipality, which comprise the statement of financial position as at 30 June 2011, and the statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 38 to 83.

#### Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Local Government: Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA), the Division of Revenue Act of South Africa, 2009 (Act No.12 of 2009) (DORA), and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor-General's responsibility

- As required by section 188 of the Constitution of the Republic of South Africa, 1996 (Act No.1 08 of 1996), section 4 of the Public Audit Act of the Republic of South Africa, 2004 (Act No. 25 of 2004) (PAA) and section 126(3) of the MFMA, my responsibility is to express an opinion on these financial statements based on my audit.
- 4. Iconducted myauditinaccordance with International Standards on Auditing and General Notice No. 1111 of 201 0 issued in Government Gazette No. 33872 of 15 December 2010. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

- 5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal control relevant to the entities. Preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and
- I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

presentation of the financial statements.

the reasonableness of accounting estimates made

by management, as well as evaluating the overall

#### Opinion

 In my opinion, the financial statements present fairly, in all material respects, the financial position of Umzumbe municipality as at 30 June 2011, and its financial performance and cash flows for the year then ended in accordance with SA Standards of GRAP and requirements of the MEMA and DORA.

#### Emphasis of matter

I draw attention to the matter below. My opinion is not modified in respect of these matters:

#### Irregular expenditure

 As disclosed in note 22 to the financial statements, the Municipality Incurred irregular expenditure of R 1,225 million as the expenditure incurred was In contravention of the Municipal Supply Chain Management Regulations of 30 May 2005 (MSCMR).

#### Additional matters

draw attention to the matters below. My opinion is not modified in respect of these matters:

#### Unaudited supplementary schedules

 The supplementary information set out on pages 38 to 52 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

#### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

12. In accordance with the PAA and in terms of General Notice No. 1111 of 2010, issued in Government Gazelle No. 33872 of 15 December 2010, I include below my findings on the annual performance report as set out on pages 88 to 126 and material non-compliance with laws and regulations applicable to the municipality.

#### PREDETERMINED OBJECTIVES

#### Presentation of information

- The reported performance against predetermined objectives was deficient in respect of the following criteria:
  - Performance against predetermined objectives was not reported using the National Treasury guidelines.

The following audit findings relate to the above criteria: The approved and reported performance indicators did not include general KPI's

 Approved and reported performance indicators did not include the general key performance indicators as required by the Municipal Systems Act of South Africa, 2000 (Act No. 32 of 2000)(MSA).

#### COMPLIANCE WITH LAWS AND REGULATIONS

#### Expenditure management

- As required by section 62(1)(d) of the MFMA, the accounting officer did not take reasonable steps to prevent irregular expenditure.
- As required by section 65(2)(e) of the MFMA, payments due to creditors were not always settled within 30 days from receipt of an invoice.
- As required by section 38(c) of the Municipal Supply Chain Management Regulations, a contract was awarded to the service provider who is prohibited as per the national treasury website.

 As required by section 44(a) of the Municipal Supply Chain Management Regulations, awards were made to persons who are in the service of the state.

#### INTERNAL CONTROL

19. In accordance with the PAA and in terms of General Notice No. 1111 of2010, issued in Government Gazette No. 33872 of 15 December 2010, I considered internal control relevant to my audit, but not for the purpose of expressing an opinion on the effectiveness of internal control. The matters reported below are limited to the significant deficiencies that resulted in the findings on the annual performance report and the findings on compliance with laws and regulations included in this report.

#### Leadership

- The accounting officer did not exercise oversight responsibility over procurement of goods and services to ensure that they complied with the requirements of MSCMR.
- The municipal council did not exercise oversight over the preparation of the Service Delivery Implementation Plan (SDBIP) to ensure that all the general KPI's are included to SDBIP.

#### Financial and performance management

 The accounting officer did not ensure that the municipality has and maintain an approved policy for performance management system.

Yours sincerely

Auditor General
Pietermaritzburg

#### Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to June 30, 2012 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The municipality is wholly dependent on the grant allocations through the Division of revenue act (Dora) for continued funding of operations. The annual financial statements are prepared on the basis that the municipality is a going concern and that the Umzumbe Municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality.

Although the Accounting Officer is primarily responsible for the financial affairs of the municipality, they are supported by the municipality's Chief Financial Officer.

The external auditors are responsible for independently reviewing and reporting on the municipality's annual financial statements. The annual financial statements have been examined by the municipality's external auditors and their report is presented on page 5.

The annual financial statements set out on pages 5 to 29, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2011 and were signed on its behalf by:

I certify that the salaries, allowances and benefits of Councillors as disclosed in note 16 of these annual financial statements are within the upper limits of the framework envisaged in section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Dr M.J Ngesi (Acting - Appointed 1 August 2010) Municipal Manager

Annual Financial Statements for the year ended 30 June 2011

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements

The annual financial statements have been prepared in accordance with the effective Standards of Generally Recognised

Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise. They are presented in South African Rand.

A summary of the significant accounting policies, which have been consistently applied, are disclosed below:

- GRAP 1 Presentation of Financial Statements
- GRAP 2 Cashflow Statements
- GRAP 3 Accounting Policies, Changes in Accounting Estimates and Errors
- GRAP 9 Revenue from Exchange Transactions
- GRAP 13 Leases
- CRAP 17 Property Plant and Equipment
- GRAP 19 Provisions, Contigent Liabilities and Contigent Assets
- GRAP 26 Impairment of Cash Generating Assets

#### 1.1 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired at no cost, or for a nominal cost, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.1 Property, plant and equipment (continued)

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Major spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment. In addition, spare parts and stand by equipment which can only be used in connection with an item of property, plant and equipment are accounted for as property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses. Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Average useful life
Infrastructure	
<ul> <li>Leveling Drains on roads</li> </ul>	20
<ul> <li>Roads construction</li> </ul>	10
<ul> <li>Road gravelling</li> </ul>	10

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.1 Property, plant and equipment (continued)

The residual value, and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

#### 1.2. Intangible assets

An asset is identified as an intangible asset when it:

- is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability; or
- arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the municipality or from other rights and obligations.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- · the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

An intangible asset acquired at no or nominal cost, the cost shall be its fair value as at the date of acquisition. Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred. An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- · it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- . there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.
   Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.2 Intangible assets (continued)

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Amortisation is provided to write down the Intangible assets, on a straight line basis, to their residual values as follows:

Item Useful life

Computer software, other 3 years

#### 1.3. Financial Instruments

#### Trade and other receivables

Trade receivables are measured at initial recognition at fair value, and are subsequently measured at amortised cost using the effective interest rate method. Appropriate allowances for estimated irrecoverable amounts are recognised in surplus or deficit when there is objective evidence that the asset is impaired. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The allowance recognised is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate computed at initial recognition.

The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the deficit is recognised in surplus or deficit within operating expenses. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against operating expenses in surplus or deficit

#### Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially and subsequently recorded at fair value.

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.3 Financial Instruments (continued)

#### Bank overdraft and borrowings

Bank overdrafts and borrowings are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the municipality's accounting policy for borrowing costs.

#### 1.4 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

#### Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

#### 1.5 Employee benefits

#### Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

#### Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

#### Defined benefit plans

The defined benefit obligation, the related current cost and where apllicable, past service cost, is determined by using the Projected Unit Credit Method. A portion of the acturial gains and losses is recognised as revenue or expense, provided the net cumulative actuarial gains and losses at the end of the previous reporting period exceed greater of:

- 10% of the present value of the defined benefit obligation at that date before deducting plan assets; and
- 10% of the fair value of the plan assets

The portion of the actuarial gains and losses to be recognised is equal to the excess calculated, using the above limits and divided by the expected average remaining working lives of the employees participating in the plan. Unvested past-service costs are recognised as an expense in the Statement of Financial Performance.

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.5 Employee benefits (continued)

For defined benefit plans the costs of providing the benefits is determined using the projected credit method.

The Municipality's employees are members of the following Benefit Schemes. Natal Joint Municipal Pension Fund (a State and Multi Employer Defined Benefit Plan). Kwazulu Natal Joint Provident Fund (a State and Multi Employer Defined Contribution Plan). Along with other Municipalities in the province of Kwazulu Natal, uMzumbe participates in a multi employer defined plan. Because the plan exposes the participating entities to acturial risks associated with the current and former employees of other municipalities participating in the plan there is no consistent and reliable basis for allocating the obligation, plan assets and cost to individual municipalities participating in the plan. uMzumbe therefore accounts for the plan as if it were defined contribution plan per Exposure Draft No. 49.

#### Pension, Provident, Retirement Benefits and Group Life Scheme

The municipality provides retirement benefits for its employees in the form of both defined benefit and defined contribution plans. The municipality is no longer providing a retirement benefits for the councilors, because they are now getting a total package.

A defined benefit plan is a plan that defines an amount of benefit that an employee will receive on retirement. A defined contribution plan is a plan under which the municipality pays a fixed contribution into a separate entity. The municipality has no legal or constructive obligation to pay further contribution if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior period.

The contributions to fund obligations for the payment of retirement benefits are charged against the revenue in the year they become payable. The defined benefit funds, which are administered on a provincial basis, are actuarially valued triennially on the projected unit credit method basis. Deficits identified are recognized as a liability and are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities.

The municipality also contributes to a Group Life Scheme for all employees in the event of their death, other than section 57 employees.

#### 1.6 Provisions and contingencies

Provisions are recognised when:

- . the municipality has a present obligation as a result of a past event;
- It is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation.

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.6 Provisions and contingencies (continued)

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

Contingent assets and contingent liabilities are not recognised but disclosed as a note in the financial statements.

#### 1.7 Revenue

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets.

#### Measurement

Revenue is measured at the fair value of the consideration received or receivable.

Revenue from unconditional grants are recognised immediately upon receipt.

Revenue from Tender sales is recognised when the bidders have actually bought the tender documents and cash has been received.

#### Rates

Revenue from rates is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- . the amount of the revenue can be measured reliably; and
- there has been compliance with the relevant legal requirements.

Changes to property values during a reporting period are valued by a suitably qualified valuator and adjustments are made to rates revenue, based on a time proportion basis. Adjustments to rates revenue already recognised are processed or additional rates revenue is recognised.

#### Conditional grants and receipts

Conditional grants, donations and funding are recognised as revenue when:

- it is probable that the economic benefits or service potential associated with the transaction will flow to the municipality;
- . the amount of the revenue can be measured reliably; and
- to the extent that there has been compliance with any restrictions associated with the grant.

If grants are received without conditions attached, revenue is recognised immediately, if conditions are attached, a liability is recognised, which is reduced and revenue recognised as the conditions are satisfied.

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.8 Borrowing costs

It is inappropriate to capitalise borrowing costs when, and only when, there is clear evidence that it is difficult to link the borrowing requirements of an entity directly to the nature of the expenditure to be funded i.e. capital or current.

Borrowing costs are recognised as an expense in the period in which they are incurred.

#### 1.9 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

#### 1.10 Unauthorised expenditure

Unauthorised expenditure means:

- · overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

#### 1.11 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

#### 1.12 Irregular expenditure

Irregular expenditure is an expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), Municipal Systems Act (Act No. 32 of 2000), Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the municipality's supply chain management policy. Irregular expenditure excludes an unauthorized expenditure. Irregular expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

#### 1.13 Use of estimates

The preparation of annual financial statements in conformity with Standards of GRAP requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the municipality's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the annual financial statements are disclosed in the relevant sections of the annual financial statements. Although these estimates are based on management's best knowledge of current events and actions they may undertake in the future, actual results ultimately may differ from those estimates.

Annual Financial Statements for the year ended 30 June 2011

#### Accounting Policies

#### 1. Presentation of Annual Financial Statements (continued)

#### 1.14 Offsetting

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

#### 1.15 Internal reserves

#### Government grant reserve

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus/deficit to the Government Grants Reserve equal to the Government Grant recorded as revenue in the statement of financial performance in accordance with a directive issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus/deficit. The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/deficit

When an item of financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus/deficit.

#### 1.16 Value Added Tax (VAT)

The municipality accounts for Value Added Tax on the cash basis with respect to the South African Revenue Service.

#### Transitional provisions

#### Due to initial adoption of GRAP 17

The Municipality is complying with Directive 4 with regards to adoption of GRAP 17. The process of componentising assets is in progress and most assets have been componentised to date. In accordance with Directive 4 for Low capacity municipalities, the date of full compliance with GRAP 17 is expected to be 30 June 2012.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

#### 22. Irregular expenditure

Opening balance Add: Irregular Expenditure - current year Less: Amounts condoned

Transfer at	fi tomorran tomorran	expenditure -		
Details of	Lirregular	expenditure -	current	vear

#### INCIDENT

During the year, the municipality awarded a contract to Fidelity Security Services for the provision of security services. The municipality was unaware that the company is listed on the National Treasury's database as a prohibited supplier from doing business with any public entity. As a result the municipality incurred irregular expenditure amounting to R83 169.96 which represents the total paid to Fidelity Security Services.

#### ACTION

The expenditure will be reported to the Council.

During the year, the municipality procured from suppliers who were in the service of the state. As a result, irregular expenditure of R1 142 198.63

was incurred which was beyond the control of the municipality as the municipality had relied on declarations forms and was unable to verify

these declarations.

The expenditure will be tabled to council for condonment.

#### 23. Retirement Benefit Information

The Municipality's employees are members of the following Benefit Schemes. Natal Joint Municipal Pension Fund (a State and Multi Employer Defined Benefit Plan). Kwazulu Natal Joint Provident Fund (a State and Multi Employer Defined Contribution Plan). Along with other Municipalities in the province of Kwazulu Natal, uMzumbe participates in a multi employer defined plan. Because the plan exposes the participating entities to acturial risks associated with the current and former employees of other municipalities participating in the plan there is no consistent and reliable basis for allocating the obligation, plan assets and cost to individual municipalities participating in the plan. uMzumbe therefore accounts for the plan as if it were defined contribution plan per Exposure Oraft No. 49.

#### 24. Prior year adjustments

#### Expenditure

Community participation  General expenses	3,096,705 23,641,317	2,975,000	(121,705)	-4.1% 0.5%
Repairs and maintenance and debt impairment	845,543	1,004,900	159,357	15.9%
Depreciation and amortisation	6,123,338	5,956,628	(166,710)	-2.8%
Salary related costs	23,841,615	27,384,460	3,542,845	12.9%

Explanation of Significant Variances greater than 10%
It was anticipated that R3 million would be received by Department of Public Works for payment of rates as reflected in the provincial gazette. However the budgeted amount billed to ratepayers reflected R1.7 million and actual revenue collected amounted to R1.4 million. Thus there was an effective 82% collection rate achieved.
Surplus funds were invested for longer periods than anticipated. In addition interest rates achieved on investments were competitive.
There has been more spending of conditional grants which resulted in more realisation of income.
The budget for other income included the VAT refund which was anticipated. However this was not treated as income.

The organogram was reviewed during the year and various positions were not filled.
Not required
The buildings, plant and equipment were in fair condition resulting in less spending on maintainence costs than anticipated
Not required
Not required

Municipal Manager's Office

Technical Services

Social and Economic Development

Corporate Services

Treasury

ANNUAL PERFORMANCE REPORT

#### MUNICIPAL MANAGER'S OFFICE

This department is headed by the Municipal Manager and has three sections as explained below.

#### DEVELOPMENT PLANNING

Responsible for Integrated Development Planning (IDP), Performance Management System (PMS) which encourages a culture of accountability and performance and development control.

#### MAYORALTY AND COMMUNICATIONS

Responsible for planning, developing and implementing strategies and projects to achieve a co-ordinated internal and external communication process, support the administrative functioning of the Mayor's office.

#### YOUTH DEVELOPMENT

The Office is responsible for advancing interests of young people within Umzumbe Municipality.

The overall functions of this section are:

- Development of the municipal Integrated Development Plan
- · Development of sector plans
- · Statutory planning
- Municipal Performance management system
- · Communication and community participation
- · Youth development
- · Special programmes
- Ward Committees

#### TECHNICAL SERVICES

This Department is headed by Director: Technical Services and has two sections, namely: Housing Development and Project management Units. Both the sections are assigned managers.

The function of this department is mainly the provision of infrastructure and basic services. This department receives funding to implement projects from the following sources: Municipal Infrastructure Grant, Equitable Share allocation, Municipal generated revenue, Department of Sports and Recreation and other government Departments.

The Technical Services Department is assigned with the following duties by the municipality:

Road Infrastructure development and maintenance

- Community Halls construction and maintenance.
- · Delivery of Basic Services
- · Housing Development
- Waste Management
- · Development of infrastructure sector plans
- Electricity Connections
- · Draught Relief Programme

# SOCIAL AND ECONOMIC DEVELOPMENT

This department is headed by Director: Social and Economic Development and comprises of three units namely: Community Services; Local Economic Development; Disaster Management. Each section is assigned a manager.

- Community Services—is responsible for all community related programmes to enhance community development and standard way of life.
- Local Economic Development facilitating and coordinating activities and programmes that would yield shared economic growth and extensive marketing of the district.
- Disaster Management provides disaster management services.

The overall functions of the Social and Economic Development Departments are as follows:

#### PRIORITIZE AND IMPLEMENT LED STRATEGY DEVELOPMENT PROJECTS

- Work in partnership with the Department of Agriculture (DoA) to prioritize and support the existing community gardens that have both poverty alleviation and economic development goals.
- Support food security initiatives that are implemented by both the DoA and Department of Social Development.
- Support schools nutritional programme to ensure basic nutrition in particular for vulnerable children.
- Involve youth, particularly women in creating a network of volunteers that facilitated care to orphans as well as counselling.
- Implement the business plans of various special programs that have been launched by the municipality.
- Participate in initiatives done by other agencies of development aimed at social development.

#### CORPORATE SERVICES

This department is headed by the Director: Corporate Services and comprises four sections as explained below.

The following are the functional areas of the units within Corporate Department:

- HUMAN RESOURCES coordination of sound labour relations, Human Resources Management and recruitment strategies, employee wellness, organisational development and occupational Health and Safety.
- SECRETARIAT coordination of secretariat support to Council and its committees.
- ICT ensuring the efficient implementation of information management systems implementation and maintenance of application systems of Enterprise Resource Planning hardware and software maintenance information systems security and general coordination of management of ICT systems.
- REGISTRY AND AUXILIARY SERVICES records management, registry management, facilities management, security management, telecommunications and building maintenance.

#### THE CORPORATE SERVICES DEPARTMENT PERFORMS THE FOLLOWING FUNCTIONS

- Identification of Human Resources Policy gaps so as to align it with Basic Conditions of Employment act and other Corporate Services policies.
- · Training and Development
- · Development of organizational structure
- · Recruitment and selection
- · Contribution to municipal strategy development
- · Perform organizational audit
- Play advisory role to other departments on employee related matters
- Develop municipal human resources policies

### Financial Viability

#### OBJECTIVE

The management of the municipal finances involves both a strategic and operational component. Strategically, the finances must be managed to accommodate fluctuations in the economy and the resulting changes in costs and revenues. Operationally, the municipality must put in place clear financial goals, polices and tools to implement its strategic plan.

The overall strategic plan is to ensure that there is transparency, accountability and sound financial management. Forming part of this plan are key performance areas such as: ensuring that all statutory reporting is compiled and submitted to the different spheres of government timeously, annual financial statements are prepared in accordance with GRAP and submitted on time, effective and efficient utilisation of financial resources, compliance to the Supply Chain Management Policy and the maintenance of assets effectively with respect to additions; disposals; impairments on the assets register.

Formed with a purpose to manage this strategic and operational component of municipal finance, the Financial Services Department is headed by the Chief Financial Officer and comprises the following sections:

- · Expenditure and Assets
- Budget, Treasury and Revenue
- · Supply Chain Management

#### FUNCTION OF THE FINANCIAL SERVICES DEPARTMENT

#### EXPENDITURE AND ASSETS

The Manager: Expenditure and Assets is responsible for salaries administration, creditor's management, VAT compliance, government grants administration, maintenance of assets and investments.

#### BUDGET, TREASURY AND REVENUE

The Manager: Budget, Treasury and Revenue is responsible for ensuring that budgets are prepared, budgets are effectively utilised, reporting to National treasury and other spheres of government, financial forecasting, property rates, collection of other income.

#### SUPPLY CHAIN MANAGEMENT

The Manager: Supply Chain Management is responsible for the implementation of the Supply Chain Management policy and ensuring that the goods and services are procured in manner which is transparent, competitive, equitable, cost effective and fair.

# Report to Council

Oversight Report
in respect of the
2010/2011
Annual for
Umzumbe
Local Municipality

DATE: 29 MARCH 2012

#### PURPOSE

To propose that the Municipal Council adopts the Oversight Report in respect of the 2010/2011 Annual Report.

## 2. BACKGROUND AND RATIONALE

#### 2.1 OVERSIGHT PROCESS

The Council resolved that the oversight role on the compilation of the 2010/2011 Annual Report be performed by the Standing Committee on Public Accounts (SCOPA). The Council took cognisance of the legislative framework prescription on members that should form part of a committee that plays an oversight role on the compilation of an annual report, when decided on assigning this role to the Standing Committee on Public Accounts (SCOPA).

The Standing Committee on Public Accounts (SCOPA) comprises of 5 non-executive councillors, which is in line with circular 32 of the Municipal Finance Management Act, Act 56 of 2003 and Sections 33 and 79 of the Municipal Structures Act, 1998.

The Standing Committee on Public Accounts (SCOPA) meeting was held on the following date to consider the Annual Report:

15 March 2012

The minutes of the above mentioned meeting are attached hereto as Annexure A.

## 2.2 CONSULTATION PROCESS

Following the tabling of the 2010/2011 Annual Report at a Council meeting held on 25 January 2012, a public notice on the avallability of the 2010/2011 Annual Report was placed in the local media. The community was invited to submit representations on the report. Copies of the Annual Report were placed for review at the following public places namely, Morrison Post, Mehlomnyama Police Station, Assisi Clinic, Dweshula Clinic, Ophepheni Information Center, Ward 7 Community Hall, Umzumbe Municipal Offices, Mgai Clinic and Social Welfare, Kwa Smith, Ward 19 Government offices, Ziyabenya Car wash, Junction ward 6 (KwaMrek), Joyisi Ward 7, Mgomeni High, Bambumoya Ward 2 and Mtwalume High Clinic.

The Standing Committee on Public Accounts (SCOPA) meeting was also advertised in the local newspapers inviting community participation in all its Committee meetings.

There were no written comments received from the members of the community.

#### 2.3. COMMENTS AND REVIEW BY THE MUNICIPAL PUBLIC ACCOUNTS COMMITTEE (MPAC)

#### 2.3.1 Financial Matters - Annual Financial Statements - Section 121 (3) MFMA

It be NOTED that:

- The consolidated annual financial statements included in Chapter 4 of the Annual Report are the Statements that were submitted to the Auditor-General.
- The Auditor General expressed an unqualified audit opinion in respect of Umzumbe Local Municipality.
- . The audit report is included in the Annual Report as tabled.
- Management corrective action plans to the audit findings raised by the Auditor-General have been tabled to Council and will be attached as an annexure to Chapter 4 of the printed annual report.

#### 2.3.2.2. Human Resources and Other Organisational Management

That it be noted that in addition to possessing a tertiary qualification, the Municipal Finance Management Act, act 56 of 2003 prescribes that the Accounting Officer, the Chief Financial Officer, Senior Management, other financial officials and Supply Chain Management officials of the municipality must meet minimum financial management competency levels and competency levels for supply chain management. National Treasury issued Regulations on Minimum Competency Levels on the 15th of June 2007; the regulations prescribe the minimum competency levels for the aforementioned categories of officials. As prescribed and required by the regulations, a progress report on the attainment of the minimum competency levels is included in the annual report under the skills development section of the annual report.

#### 3. STRATEGIC IMPLICATIONS

The adoption of the Oversight Report on the annual report is in accordance with the KPAs - Good Governance and Public Participation and Infrastructure and Basic Service Delivery.

#### 4. LEGAL/ STATUTORY IMPLICATIONS

- Municipal Finance Management Act, 2003 (Act 56 of 2003) (Chapter 12).
- Municipal Systems Act, 2000 (Act 32 of 2000) (Chapter 6), as read with the Municipal Systems Amendment Act, 2003 (Act 44 of 2003).
- Municipal Structures Act, 1998 (Act 117 of 1998).

#### 5. STAFF/ PERSONNEL IMPLICATIONS

None.

#### 6. FINANCIAL IMPLICATIONS

The Annual Report and the oversight process are provided for in the 2011/2012 budget.

#### 7. COMMUNICATION IMPLICATIONS/ PUBLIC RELATIONS

- A public notice inviting representations from the community was placed in the local media.
- Meetings of the Standing Committee on Public Accounts (SCOPA) were advertised in the local press and all meetings were open to the members of the public.

## 8. OTHER PARTIES CONSULTED

- . The Auditor-General.
- Audit Committee
- · Corporative Governance and Traditional Affairs (Cogta)

## 9. RECOMMENDATIONS

- a) That the Council approves the 2010/2011 Oversight report without reservations.
- b) That the Council, having fully considered the annual report adopts the 2010/2011 report without reservations.

CLLR M.Z. LUTHULI

CHAIRPERSON: STANDING COMMITTEE ON PUBLIC ACCOUNTS (SCOPA)
